Increasing Fiber in Your Child’s Diet

What is fiber?
Fiber comes from plant foods like fruits, vegetables, and grains. It is not digested or chemically broken down in the body. There are two types of fiber. People need both types every day.

- **Insoluble fiber** “scrubs” and stimulates the intestinal tract. It is found in whole grain products and high fiber bran cereals.
- **Soluble fiber** soaks up wastes like a sponge. It is found in oatmeal, barley, apples, and carrots.

Why is fiber so important?
- Fiber fills you up so you feel full longer.
- High fiber foods are full of vitamins and nutrients and are rich in antioxidants.
- Adding more fiber in the diet increases bowel function. This can increase the elimination of waste and fat (cholesterol) from the body.

What about fiber pills?
Pills and powders do not help you feel full. They may only contain a small amount of actual fiber. It is always best to get your fiber from real food. You will also benefit from the extra vitamins and minerals in high fiber foods.

How much fiber does my child need?
Use this formula to figure out how much fiber your child needs in one day:

- Your child’s age in years + 5 = grams of fiber needed per day

*Example*: Eric is 10 years old. The amount of fiber he needs every day is 10 (his age) plus 5. This means Eric needs a total of 15 grams of fiber per day.

Use the fiber chart on Page Two to choose foods with fiber
Offer your child foods with fiber and limit foods with no fiber. This chart will help you make choices about foods.
Increasing Fiber in Your Child’s Diet

Other fiber boosting tips:

- Read the food label when grocery shopping. High fiber foods have **5 grams of fiber** or more per serving. Switch to whole grain breads with at least 2 grams of dietary fiber per serving. The first ingredient on the food label should be whole grain or whole wheat.
- Start your day with a high fiber cereal, muffin or granola bar.
- Add crushed bran cereal to baked goods such as meatloaf, casseroles and cookies. You can also use it as a topping on vegetables, casseroles or salads.

**Offer your child plenty of fluids every day**

Your child needs enough fluids every day to help stools stay soft and pass easily. Use this chart so that you know what your child needs each day:

<table>
<thead>
<tr>
<th>Weight in Pounds</th>
<th>Fluids per day</th>
</tr>
</thead>
<tbody>
<tr>
<td>10 pounds</td>
<td>16 ounces (2 cups)</td>
</tr>
<tr>
<td>20 pounds</td>
<td>30 ounces (3-3/4 cups)</td>
</tr>
<tr>
<td>30 pounds</td>
<td>40 ounces (5 cups)</td>
</tr>
<tr>
<td>40 pounds</td>
<td>48 ounces (6 cups)</td>
</tr>
<tr>
<td>50 pounds</td>
<td>52 ounces (6 ½ cups)</td>
</tr>
<tr>
<td>60 pounds</td>
<td>55 ounces (7 cups)</td>
</tr>
<tr>
<td>80 pounds</td>
<td>61 ounces (7 ½ cups)</td>
</tr>
<tr>
<td>100 pounds</td>
<td>67 ounces (8 ¼ cups)</td>
</tr>
<tr>
<td>120 pounds</td>
<td>73 ounces (9 cups)</td>
</tr>
<tr>
<td>140 pounds</td>
<td>79 ounces (10 cups)</td>
</tr>
<tr>
<td>150 pounds</td>
<td>82 ounces (10 ¼ cups)</td>
</tr>
</tbody>
</table>

### Cereals

**1 to 2 grams per serving**
- 1 biscuit Shredded Wheat™
- 1 cup Cheerios™; Crispy Wheat N Raisins™
- 1/4 cup Grape Nuts™

**3 to 4 grams per serving**
- 2/3 cup Nutri-Grain™; Wheat Chex™ Oatmeal (old fashioned cooked type)
- 1 cup Total™; Wheaties™
- 1/2 cup Frosted Mini-Wheats™

**5 to 6 grams per serving**
- 3/4 cup Bran Flakes™; Raisin Bran™
- 2/3 cup Bran Chex™; Corn Bran™ Kellogg’s Squares™ (raisin, strawberry, blueberry, apple)
- 1 cup Raisin Nut Bran™

**Over 7 grams per serving**
- 1/3 cup All Bran™; Bran Buds™; Fiber One™

### Fruits

Any fresh fruit is good. Try to have your child eat the fruit with the edible skin on it (be sure to wash the fruit first). The outer peel has the most fiber.

**1 to 2 grams per serving**
- 1 medium size Banana (ripe), Kiwi fruit, Nectarine, Peach, Plum
- 1/4 cup Raisins
- 1 cup Pineapple (fresh)
- 15 pieces Grapes

**3 grams per serving**
- 1 medium size Apple with skin; Orange
- 1 cup Blackberries; Blueberries; Strawberries; Raspberries

**4 to 5 grams per serving**
- 1 medium Pear
- 10 halves dried Apricots
- 6 to 8 pieces Prunes or Figs

### Vegetables

Raw vegetables are best. You may need to grate, grind, or chop vegetables to reduce the risk of choking.

**1 to 2 grams per serving**
- ½ cup: Greens (cooked collard, turnip or mustard greens); Broccoli; Corn; Cauliflower; Spinach (cooked); Cabbage (cooked); Carrots (raw); Beets; Squash; Green beans.
- 1 cup Spinach (raw)
- 1 medium size Tomato

**3 to 4 grams per serving**
- 1/2 cup: Green peas; Brussels Sprouts
- 1 medium Sweet Potato (Yam) with skin; Potato with skin
- 1 small ear Corn-on-the-cob

**Over 5 grams per serving**
- 1/2 cup: Lima beans (8 grams per serving)

### Breads, Grains, Dried Beans, & Peas

**1 to 2 grams per serving**
- 1 slice Whole wheat bread; Rye bread; Pumpernickel bread
- 1, 6-inch size Corn Tortilla
- 4 squares Graham crackers
- 3 crackers Ry Crisp™ crackers
- 1 waffle Nutri-Grain™ plain waffle

**3 to 4 grams per serving**
- 1/2 cup Whole wheat pasta
- 1 cup Brown rice
- 1 small Bran Muffin
- 3 to 4 crackers Whole wheat crackers
- 3 cups Popcorn
- 1 waffle Nutri-Grain™ Multi-bran waffle

**5 to 6 grams per serving**
- 1/2 cup Kidney beans; Pinto beans; Navy beans; Vegetarian Refried beans; Baked beans; Split peas; Chick peas; Black-eyed peas; Lentils
