The Wisconsin Child Psychiatry Consultation Program (CPCP) goal is to improve mental health care for children in the state of Wisconsin by establishing consultative support from child psychiatrists, child psychologists, and social workers. Through education and consultation, primary care providers are able to offer timely, quality mental health care to children with mild to moderate mental and behavioral health concerns.

**CPCP COMPONENTS**

- Availability of daily case consultation through email or phone call with a child psychiatrist, psychologist, resource coordinators: Mondays–Fridays 8 a.m.–5 p.m., excluding holidays
- Ensure a referral support system for pediatric patients to other mental health professionals and community resources
- Mental health education for primary care providers:
  - Rating Scales and Suicidality
  - Trauma Informed Care (TIC)
  - Psychopharmacology management of ADHD, depression and anxiety, and atypical antipsychotic agents
- Behavioral management series forthcoming

**SERVED COUNTIES**

- Western Region
- Northern Region
- Northeast Region
- Southeast Region
- Southwest Region

Funding for this program is from the Wisconsin Department of Health Services, Wisconsin Act 127, and the Wisconsin Child Psychiatry Consultation Program. The Charles E. Kubly Family provided a generous donation to pilot the CPCP specifically in the Southeastern Region of Wisconsin and Milwaukee County prior to 2013 Act 127, as well as provided an additional donation. We offer our acknowledgment and gratefulness to the Kubly Family and Wisconsin Department of Health Services.

For more information, please visit our website at [www.chw.org/cpcp](http://www.chw.org/cpcp)
As of September, 2018 there are:
- 417 providers representing 76 clinics enrolled in the Southeast Region
- 176 providers representing 60 clinics enrolled in the Northern Region
- 15 providers representing 4 clinics enrolled in the Northeast Region
- 8 providers representing 8 clinics enrolled in the Western Region
- 2 providers representing 2 clinics enrolled in the Southwest Region

Cumulatively, our team has provided 2278 consultations through a combination of phone calls and emails.

BY THE NUMBERS...

Half of all lifetime mental health illnesses begin by age 14
