

Thank you for participating in the CPCP! By accessing the consultation services, completing education modules, and responding to program surveys we are able to gather data to validate the need for sustainability and growth. Our hope is to expand CPCP's services statewide and your continued participation and use of services will help make this possible.

## **Holiday stress may increase for the traumatized child**

To help people cope with grief, stress, and depression during the holiday season, the National Child Traumatic Stress Network (NCTSN) offers resources for educators, families, and mental health professionals. For more information, visit: <http://www.nctsn.org/resources/public-awareness/holiday-stress#g3>

---

## **Schedule your consultation ahead of time**

We recognize that providers are very busy. To accommodate you, you or your support staff can call or email the consultation line on your behalf to schedule your consultation date and time that is convenient for you. On the specified date and at the designated time, you can expect a phone call from the CPCP child psychiatrist or psychologist to discuss your consultation questions.

---

## **Seasonal affect disorder (SAD) – It's that time of year**

SAD is a combination of biologic and mood disturbances with a seasonal pattern. It typically occurs in the autumn and winter. For the expanded article on diagnosis and treatment, visit: <http://www.aafp.org/afp/2012/1201/p1037.html>

---

## **For consultation questions, contact us Monday through Friday, 8 a.m. – 5 p.m.**

Email for a business day response, or call for a response within 30 minutes.

---

## **Thank you for participating in the Wisconsin Child Psychiatry Consultation Program (CPCP)**

We look forward to working together to improve mental health care for children in the state of Wisconsin. For more information and resources please visit the Wisconsin CPCP program website at: [www.chw.org/cpcp](http://www.chw.org/cpcp).
