The Next Frontier for Families: Explore the Roles that Influence the Continuum of Care

Presenters:

**Gina Altreuter BSN, RN:** has worked at Children's for 9 years. She is working at Pewaukee Pediatrics, one of our primary care clinics, as the Clinical Practice Coordinator. She enjoys teaching the growth and measurement class during central orientation week, and loves being involved in quality improvement projects within her own clinic and across CMG. She created and presented a poster at last year’s nursing conference with a fellow RN on Enhancing the Role of Pediatric Primary Care RNs in a Team Based Care Delivery Model.

**Erin Brauer BSN, RN, TNC, CCRN:** has worked at Children’s since July 2015. She spent 3.5 years at the bedside in the NICU, where she trained to attend high risk deliveries. She later became a preceptor for new nurses, serving on multiple committees and worked often with end of life and bereavement care. She received her CCRN in December of 2018 and transitioned to the transport role in January 2019.

**Nicholas Herrick BSN, RN:** has 9 years of experience in School Nursing/School Health programs as a School Nurse, District Health Coordinator, and current program manager within Children’s Hospital of Wisconsin. Collaboration for the continuum of care or partnerships have included Public Health Departments, Children’s Hospitals, Primary Care and Private Practice, and Specialty clinics.

**Gina Payton BSN, RN:** has worked at Children's for 8 years. She works on the inpatient unit West 9 and primarily takes care of surgical, urology, and burn patients. She has recently become one of the hospital's Safe Sleep Champions and is working to improve the safety of infants in the hospital setting.

**Robyn Woolever BSN, RN-BC:** Robyn Woolever has worked at Children’s for a total of 15 years. She worked in the PICU as a bedside nurse, a clinical liaison for the home care vendor program at Children's, Aurora home care nurse and worked in the hospital case management department for 11 years. She is currently the Manager of Hospital Case Management, Utilization Management, & Vendor Liaison Program and has been a leader for over 9 years. She is currently working on her Master's Degree in Nursing with a specialization in Administration and Management. Robyn is a member of the post-acute care taskforce on behalf of Children’s at the Wisconsin Hospital Association. Robyn has also presented at this conference previously on *Coordination of Care: The Home Care Nurse Perspective.*

**Facilitator:** Tracy Blair MSN, RN, CPN has worked at Children’s for 28 years. She worked in patient, NICU, Surgery and now works in the Schools of Nursing department. There she mentors the nursing instructors that teach at Children’s and also teaches a clinical groups in surgery for Marquette University and University of Wisconsin Milwaukee. She has created numerous post conferences for clinical groups, presented at Nursing Grand Rounds on Generations/Generation Gaps in the workplace and has embraced Children’s value of innovation by creating a website and pages for her clinical group and even this conference.
